CHICAGO DAILY NEWS MOTOR GUIDE 1921

Do You Want to Buy a Car?

A high-priced car? Low? Touring—town car—roadster?

Do you want to pay cash for it? Part cash? Trade in your old car?

Do you need tires? A new radiator? Spark plugs? Seat covers?

The advertising columns of The Chicago Daily News are a veritable market place for those who are looking for automobiles or automobile accessories.

Through the 400,000 circulation of The Daily News, the big automobile advertisers of the country present their offering to seven out of every nine persons in Chicago who read the English language—a compelling majority of the Chicago buying public.

More money is spent for automobile advertising in The Chicago Daily News than in all the other Chicago evening newspapers combined, because automobile advertisers realize that they secure maximum advertising efficiency from the newspaper that concentrates 94% of its great daily circulation in Chicago and suburbs—the very territory from which the greatest results are obtained.

ROUTE No. 20

Chicago to Starved Rock

(Via Joliet) 96.2 Miles

This route to Starved Rock is seven miles shorter than the other route via Aurora. While not so scenic as the Starved Rock Trail, it stretches over fine roads to Joliet and from Joliet to Ottawa leads though forty miles of direct country road. Only one small hamlet is passed after leaving Joliet. Excellent time may be made, for the road is clear of traffic and dust.

MILES

- 0.0 **CHICAGO.** Michigan and Jackson Blvds. South on Michigan to

TIMELY TIPS FOR MOTORISTS

By George S. Robbins

(Automobile Editor of The Chicago Daily News.)

RULES OF THE ROAD

Every driver of a motor vehicle should know and obey the rules of the road. States and cities have their own traffic codes, but there are rules common to all which all should observe.

When meeting a vehicle going in the opposite direction turn to the right.

When passing a vehicle going in the same direction, turn out to the left.

Don't cross an intersecting street without slowing down unless you have a clear view in both directions. Many accidents result from failure to obey this rule.

Stop, look and listen before crossing railroad or trolley tracks.

In turning a corner to the right, keep as close as possible to the right hand ditch or curb.

Dim the lights when leaving the car at the curb, also in city driving. This precaution not only is helpful to others but "saves" the battery.

In turning a corner to the left, always continue on past the center of the intersection of the two roads or streets before making the turn.

Keep to the right.

In nearly all cities unnecessary noises are prohibited. These include cut-outs, siren whistles and needless blowing of horn.

In stopping your car, always stop at the right hand curb.

Don't leave your engine running with your car unattended.

In crowded traffic don't apply the brakes suddenly unless it is absolutely necessary. The vehicle following you may be unable to stop as quickly as you and a collision may result.

One of the first principles of good driving is not to take a chance or flirt with death. Good driving means careful driving.

There are state laws which fine or imprison one for the defacement or concealment of the registration number.

It is a criminal offense punishable by law for a driver to operate a car while intoxicated.

Don't attempt to run your car in high gear in congested traffic where sudden starting and stopping are necessary. Put gears in second speed.

Violent headlight rays are not permitted when approaching or passing another vehicle.

Don't travel along in low gear very far when starting your car but shift to second soon after the wheels have begun to turn. When changing from second gear to high don't be in too much of a hurry. With the clutch disengaged, permit the motor to slow down appreciably. Then pull back the lever after hesitating for a second in neutral.

Be courteous. Don't "hog" the road. If others wish to drive faster than you and break the laws, permit them to pass.

Don't attempt to stage a motor race on the public highways, especially the streets of a city. Brick and board ovals are the places for these contests. Besides, there is a state law against such procedure in Illinois.

Fast driving on wet pavements or slippery roads is fraught with great danger. Keep your car under perfect control at all times and avoid quick stops.

Before turning to the right hand or left or stopping the car or decreasing its speed, be sure to signal the driver behind by putting out your hand. The driver behind is not a mind reader.

Don't argue with traffic officers. Help these officers by keeping out of trouble. Ignorance of the law doesn't excuse an offending motorist.

Street cars usually have the right of way to their tracks. Don't try to beat a street car. If it hits you, you are the one to suffer.

LATEST CHICAGO "LOOP" PARKING RULES

Thirty-Minute Ordinance—Permits parking in the territory between the north line of Lake street, the south line of Harrison street, the east line of Wabash avenue and the west line of Market street, from 7:00 a. m. until 7:00 p. m. for a period not to exceed thirty minutes on all streets where there are no street car tracks and between 10:00 a. m. and 4:00 p. m. motorists may park for thirty minutes on streets where there are street car tracks.

No Parking Ordinance—Provides there shall be no parking on any street between the north line of Lake street, the south line of Van Buren street, the east line of Wabash avenue and the west line of Market street, where there are street car tracks, between the hours of 7:00 a. m. and 10:00 a. m. and 4:00 p. m. and 7:00 p. m. except for the purpose of loading or unloading passengers or merchandise. The courts have held that loading and unloading means the actual act of doing so at the curb and not preparing loads or putting away loads on the inside.

These ordinances mean a motorist may park for thirty minutes at a stretch on any street in the prescribed area from 7:00 a. m. until 7:00 p. m. where there are no street car tracks. He is prohibited from parking at all in this area where there are street car tracks between the hours of 7:00 a. m. and 10:00 a. m. and 4:00 p. m. and 7:00 p. m. except for the purpose of loading or unloading passengers or merchandise.

PARKING ON JACKSON BLVD.

An amended ordinance of the South Park commissioners forbids parking on that portion of Jackson boulevard, under their control, between the hours of 7:00 a. m. and 9:30 a. m. and between 4:00 p. m. and 7:30 p. m., except while loading or unloading. At all other times cars may be parked on Jackson boulevard with their right sides to the curbs for a period not exceeding thirty minutes provided the users are on a mission of business or pleasure in buildings fronting on Jackson boulevard.

MICHIGAN AVE. PARKING RULE

An amended ordinance passed by the South Park commissioners in 1921 forbids parking on Michigan boulevard north of 28th street except while loading or unloading between the hours of 7:00 a. m. and 9:30 a. m. and between 4:00 p. m. and 7:30 p. m. At all other times vehicles may be parked except at west curb, between Randolph and East 12th street, for a period not exceeding thirty minutes provided the users of such vehicles are on a mission of business or pleasure in a building fronting Michigan boulevard and provided that vehicles may stand any part of the day with their right side to the east curb of Michigan avenue in one line only between East 12th and Randolph streets for a period not exceeding thirty minutes.

NIGHT PARKING IN THE LOOP

In night time, that is to say, from 7:00 p. m. until 11:30 p. m., one line of automobiles only is permitted to park on the south side of Randolph street between La Salle and State streets, otherwise known as the theater zone. Those wishing to park in that vicinity may do so on La Salle street between Randolph and Washington streets, backing into the curbs diagonally, under the supervision of a police officer. Also on both sides of State street between Randolph and Washington streets, on which street automobiles will back straight into the curb, with the exception of main entrances to buildings.

PUBLIC PARKING SPACES

There are three public parking spaces for motorists having business in the loop district. They are: the center of Market street from Lake to Madison streets; Grant Park at the foot of Monroe and Van Buren streets; and the space beneath Michigan avenue from South Water street to Grand avenue.

MOTOR VEHICLE SPEED LIMITS

The speed limit in a business district and when approaching a railroad crossing is ten miles an hour. In a residential district or a park it is fifteen miles an hour. On the outskirts of a city or a village it is twenty miles an hour, and thirty miles an hour on country roads. In turning corners, crossing boulevards and towing it is six miles an hour.

SPECIAL RULE OF ROAD

Turn to left when overtaking another motor vehicle, except on street car tracks, when turn must be to the right. This rule has caused much confusion but it is definite. The motor vehicle law and the Chicago code are plain on this rule.

NON-RESIDENT REGISTRATION

An owner of a motor vehicle registered under the laws of another state which gives like privileges to residents of Illinois may remain in this state for a period of six months without having to register the motor vehicle in this state.

PERSONS BARRED FROM DRIVING

No one under 15 years of age, unless accompanied by a licensed chauffeur, is permitted to drive a motor vehicle in Illinois. Any one driving while in a drunken condition is subject to a fine of not more than \$200.00 or by imprisonment in the county jail not exceeding sixty days or by both.

THINGS TO TAKE ON LONG TOUR

A strong tow rope, a set of ignition brushes boxed and labeled, jack and handle and two blocks of wood on which to rest jack, box of plungers for the valves, file for cleaning points, hydrometer for testing storage battery, box of assorted nuts and assorted cap screws, lock washers, spool of copper and one of soft wire, extra set of electric light bulbs, set of fuses if used on car, clean rags and waste, folding canvas pail, full set of tire chains and equipment, and a folding tent with equipment. Morning and evening may be excessively cool especially in high altitudes and tourists should carry sweaters, raincoats and rubbers.

Motorists planning long trips are warned to beware putting too much confidence in guide books. This is a period of road building in all the states and long highways are cluttered up with many detours. Don't be backward about inquiring your way at automobile club touring bureaus and garages.

CITY LICENSE RULES

Application for city license plates must be filed with the city clerk who provides them to be affixed in a conspicuous place. Special license is provided for dealers. All licenses have to

be paid by May 5 and no deduction is made for any part of the year. Licenses expire on Jan. 1.

The revenue derived from this source is kept as a separate fund and used for street and alley improvement and repairs.

License fees, payable to the city collector, are: motor bicycles or tricycle, \$3.00; motor vehicles, 35 horsepower or less, \$10.00; more than 35 horsepower, \$20.00; motor trucks, coaches, busses, \$30.00; light delivery motor wagons, \$15.00; commercial vehicles, 35 horsepower or less, \$10.00; commercial vehicles, more than 35 horsepower, \$20.00.

MOTOR VEHICLE INSURANCE

What it should cover. 1. Fire—To insure the subscriber against loss or damage caused by fire from any cause whatsoever. 2. Theft—To insure the subscriber against loss or damage caused by theft, robbery or pilferage. 3. Collision—To insure an owner against loss or damage caused by collision with any other object. 4. Personal Liability—To protect one against loss or expense arising from bodily injury or death of any person by reason of ownership, maintenance or use of an automobile. 5. Property Damage—Insures the owner against loss or expense arising from damage to property of others.

PROCEDURE IN CASE OF ACCIDENT

Always stop to offer all possible assistance in case of accident to person or property. There is a state law on the subject. One must give true name and address on demand by anyone.

If one's car is in an accident he should look for witnesses. Get in touch with an officer if possible and, if he saw the accident, so much the better. Look your car over carefully to see just what damage has been done but get your witnesses first. If you have a camera take a snapshot of your wrecked car. Be careful to take note of the time and place and the exact location with reference to buildings or other landmarks. Failure to do this may lead to complications later in claims made against you.

One should inform his insurance company of the accident and inquire where it wishes him to take the car to be repaired.

“MOTOR SPARKS”

A regular feature of The Chicago Daily News.

The motorists' guide for daily information.

There have been other automotive columns but Motor Sparks furnishes something new. It has satisfied a pronounced demand of the man or woman who owns or drives an automobile.

This feature furnishes the motorist daily with the latest news concerning routes, detours, speed traps and keeps him informed of the latest happenings in the fast expanding automotive industry.

The busy automobile owner who takes time occasionally for a spin into the country will find the open road much more inviting provided he has kept posted on the best routes, troublesome detours, so called “arrest traps” and a hundred and one bits of interesting information of this sort. He will find all of these features in Motor Sparks.

Motor Sparks meets the demand of the busy motorist by supplying him with real, live, up-to-the-minute news from the automotive world. One of his cylinders may “miss” occasionally but he can't afford to miss a single one of these “Sparks.”
